HOW TO USE YOUR TORONTO CITY DIRECTORY

The new and improved Toronto City Directory is the most complete and comprehensive catalogue ever published of the inhabitants, business concerns and institutions of the city.

THE TORONTO HARBOUR COMMISSIONERS

The Port of Toronto, through continued expansion and planned development, has become one of the most modern harbours on the Great Lakes with a cargo tonnage placing it among the leaders of both Canadian lake and sea ports.

Under the direction and administration of The Toronto Harbour Commissioners, with the co-operation of the City Council and the Dominion Government, Toronto Harbour has experienced very marked improvements in navigation, commercial and industrial facilities. Two large waterfront industrial areas have been created almost entirely out of non-revenue producing marsh lands and lands previously covered by water.

Serving these two areas are concrete wharves and piers; twelve miles of modern dockage; 32 miles of terminal railway track owned or controlled by the Commissioners; perfect co-ordination of rail, water and highway transportation; wide streets and all modern conveniences and accommodation for industrial and commercial establishments.

The extent and beneficial importance of Toronto Harbour developments to the City and the impetus given the City's commerce by waterborne trade are intangibles difficult of measurement. A tangible result, however, is seen in the payment during 1958 of some $4,315,000 in taxes, made to the City by industry and manufacturers located on lands created by the Harbour development.

Following is a table of waterborne traffic cargo tonnage at Toronto Harbour, in short tons:

1943	3,612,215
1953	4,707,133
1955	4,493,927
1956	5,486,912
1957	5,247,658
1958	4,487,328

Generally, material improvement in the physical condition and commercial importance of Toronto Harbour date from the inception in 1911 of the present method of administration by The Toronto Harbour Commissioners.

In addition to industrial developments, the Commissioners, working to a planned programme, have reclaimed park and recreational areas, one of which is Sunnyside Beach near the western entrance to the City. Known as Toronto's lakeshore playground, Sunnyside extends from the Humber River eastward for a distance of one and three-quarter miles.

Also extending easterly from the Humber River to Leslie Street, a distance of approximately 7 miles, is the cross-town waterfront highway made possible by the waterfront development, and with, for the most part, a minimum pavement width of 50 feet.

The Toronto Island Airport and Seaplane Base, located south of the Western Channel entrance to Toronto Harbour, is operated by the Harbour Commissioners for and at the expense of the City. It is located approximately one and one-half miles from the Union Station.

TORONTO—INDUSTRIAL FACTS

Toronto is the home of 4,700 manufacturing plants, representing a diversity of manufacturing that covers the whole alphabet. In this city is located the largest concentration of British and United States branch plants to be found anywhere in Canada.

Some of the fields of production in which Toronto is outstanding are meat packing; electrical apparatus and supplies; rubber goods; machinery; pharmaceuticals; and printing and publishing.

INDUSTRIAL DEVELOPMENT

There are approximately 4,700 manufacturing establishments in Metropolitan Toronto. Toronto has twice as many branches of British and United States firms as the next ranking centre in Canada. The selling value of factory shipments in 1955 was $2,700,000,000. There are in the Toronto area 200,000 industrial employees, and the 1955 manufacturing payroll approximated $680,000,000.

Toronto is firmly established as Canada's leading industrial and distributing city. It is the immediate centre of the largest and wealthiest consuming population in Canada (one-third of the buying power of the entire Canadian market is concentrated within a radius of 100 miles), and it is the centre of country-wide business and wholesale trade. It is also a favorable base for world-wide export trade, which is one of the outstanding features in Canadian industrial development.

The volume and diversity of Toronto manufacturing provide under normal conditions plentiful and efficient labor, skilled and unskilled, male and female, in fact it is the provincial clearing house for labor.

Toronto has excellent transportation facilities with many sources of raw and semi-manufactured materials in close proximity. Rail, water, highway and air communications radiate from Toronto giving efficient low-cost distribution.

Splendid industrial sites are available in the harbor, in other zones within the city limits and in its industrial suburbs. It has electric power at cost and it is one of the financial centres of the North American Continent.

The Metropolitan Toronto Industrial Commission, Canada Permanent Building, 320 Bay Street, Toronto, is the official industrial commission for the City of Toronto and covers 40 adjacent municipalities, ranging in population from 1,000 people to the city of Toronto with 646,000 persons.

Many other statistics show how rapid and sizeable has been the city's business growth. Consider the large increase in the number of telephones—the pulses of city commerce in Toronto.

The number of telephones in service since 1950 is as follows:—

December 31st, 1951 - 450,000	December 31st, 1955 - 608,500
December 31st, 1952 - 480,600	December 31st, 1956 - 667,600
December 31st, 1953 - 551,600	December 31st, 1957 - 715,189
December 31st, 1954 - 559,800	December 31st, 1958 - 762,620
